I am in a desperate straight financially, & the next 3 months will decide much one way or the other. Since you are able to ~~do so~~ take care of yourself for a time I will not feel that you too will go under with me, if it comes to that. I have only money enough for the next two weekly pay days and unless something happens in that time my embarrassment will cast a cloud over the prospects of Monte Ne. To mortgage the place wd do the same thing. I will therefore have to ask you to use your own money till I pull through. Tom is well & seems to enjoy the country.
